

FINNPEP™ - RESTOFX

RESTORE YOUR SKIN THE NATURAL WAY

INCI NAME

Water, Coprinus Comatus (Mushroom) Extract, Cordyceps Sinensis Extract, Ganoderma Lucidum (Mushroom) Extract, Grifola Frondosa Extract, and Polyglutamic Acid

USAGE LEVEL

1-3%

DESCRIPTION

FinnPep™ RESTOFX is composed of mushrooms grown in the pure, Nordic utopia of Finland. This country is known for its clean air and soil that lacks harmful pollutants. Due to the growing conditions of the mushrooms, they exhibit the highest purity and quality in comparison to mushrooms grown in other countries. This purity is kept intact during the extraction process to provide a concentrated mushroom complex rich in beneficial vitamins and minerals.

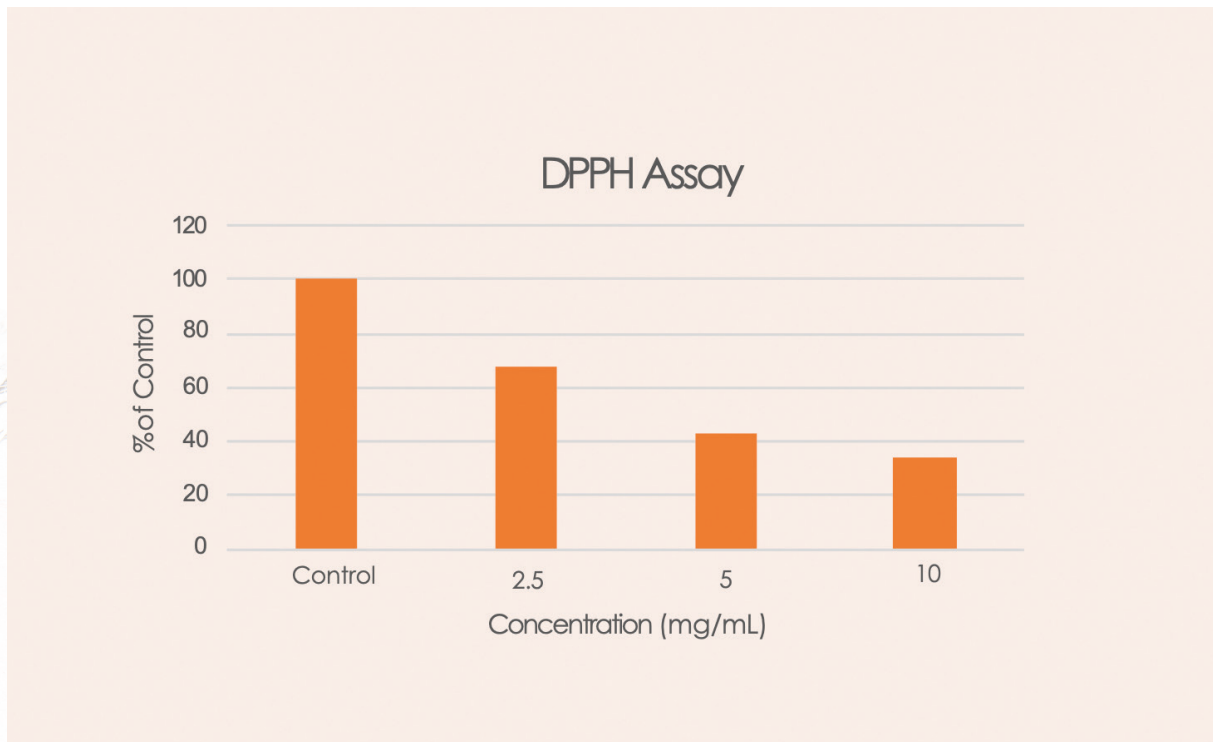

This complex is composed of the coprinus, cordyceps, reishi, and maitake mushrooms that are rich in beta-glucans, amino acids, and key vitamins and minerals. In addition, they also contain powerful antioxidants that help combat premature aging and free radical formation. The combination of these adaptogenic mushrooms with polyglutamic acid allows for increased free radical protection while simultaneously keeping the skin plump, smooth, and hydrated.

BENEFITS

- Provides essential vitamins and minerals
- Aids in reducing free radical formation
- Imparts skin hydration
- Helps reduce inflammation

IN-VITRO TEST

IN VITRO – DPPH ASSAY

- **Control:** Pure DPPH radical
- **Application Time:** 20 minutes
- **Testing Equipment:** Microplate spectrophotometer
- **Testing Results:** 66% decrease in free radical
