

SMART™

Cocoa Butter

Excellent antioxidant,
moisturizer leaving skin
smooth and soft

BENEFITS

SMA'RT Cocoa Butter is obtained from the roasted seeds of Cacao tree. The butter is extracted from the seed kernels and refined to yield a pleasant, light, cocoa odor. SMA'RT Cocoa Butter is rich in natural plant antioxidants which help to protect against damage from the sun's harmful UV rays. Solid at room temperature, cocoa butter melts when in contact with skin. It has a long shelf life and is commonly seen in products for smoothing scars, wrinkles and stretch marks due to its conditioning and moisturizing attributes.

INCI: Theobroma Cacao (Cocoa) Seed Butter
Suggested use level: 1-75%

BENEFITS

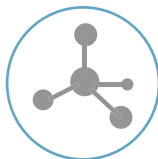

- Soften and Smoothes the skin
