

SMART-E

Excellent antioxidant, anti-inflammatory, moisturizer leaving skin & hair smooth and soft

BENEFITS

SMART- E is a stable form of Vitamin E that has excellent anti-inflammatory, antioxidant, and moisturizing properties. It is converted to free tocopherol when applied to the skin and results in an increase in skin bioavailability. SMART-E is known to calm and smooth skin that has been exposed to external irritants. It is also known to protect skin from free radical sun damage and lipid peroxidation, resulting in anti-aging properties. SMART-E prevents breakage and split ends while simultaneously boosting hair elasticity, shine, and luster.

INCI: Tocopheryl Acetate
Suggested use level: 0.5-10%

BENEFITS

- Anti-inflammatory
- Antioxidant
- Moisturization
- Anti-aging
