

SMART™

Jamaican Black Castor Oil

Highly Moisturizing,
Reddish Yellow to
Amber Clear Liquid Oil

BENEFITS

The omega-6 and omega-9 fatty acids in SMA'RT Jamaican Black Castor Oil can do wonders for thin and easily breakable hair. These acids will nourish the scalp, strengthen the hair roots, and improve blood flow to the scalp. This results in the promotion of new hair growth, helping to treat thinning hair. SMA'RT Jamaican Black Castor Oil is a highly therapeutic oil. Its complex composition including Ricinoleic Acid, Linoleic, Oleic Fatty Acids, Phytosterols, and Tocopherols enhances its activity. SMA'RT Jamaican Black Castor Oil has been ideal for ethnic hair care, as it is highly moisturizing and provides luster and softness to otherwise dry, coarse hair. Today, the use of Jamaican Black Castor Oil has crossed over into other ethnic groups. SMA'RT Jamaican Black Castor Oil is a dark, rich therapeutic oil used to condition skin, hair, and scalp. In addition, it reportedly has a beneficial effect on hair growth, resulting in thicker, healthier hair.

INCI: Ricinus Communis (Castor) Seed Oil
Suggested use level: 0.5-10%

KEY ATTRIBUTES

- High in omega-6 and omega-9 fatty acids
- Rich in Ricinoleic Acid, Linoleic and Oleic Fatty Acids
