

SMART™

Luminous TXA

Improved Stability Over
Other Known Skin
Lighteners/ Brighteners

BENEFITS

SMA'RT Luminous TXA is another powerful multi-functional active by SMA Collaboratives. A derivative of the amino acid lysine, SMA'RT Luminous TXA is recognized for its ability to brighten/lighten skin and improve overall evenness of skin tones as well as reduce the appearance of age spots/dark spots. It exhibits anti-inflammatory properties and is considered to be an anti-irritate with reduced sensitivity to skin. SMA'RT Luminous TXA helps to repair damage due to sun and other environmental stressors. Works in collaboration with SMA'RT VC-OS, SMA'RT VCL or SMA'RT Ascorbyl Glucoside for enhanced efficacy. SMA'RT Luminous TXA exhibits improved stability over other known skin lighteners/brighteners at elevated temperatures, light exposure, pH ranges and oxidative stresses. It is suitable for all skin types.

INCI: Tranexamic acid

Suggested use level: 0.5-2.5%

KEY ATTRIBUTES

- Skin Lightening/Brightening
- Anti-inflammatory
- Reduce and fade age spots
- Even skin tones
- Environmental damage

APPLICATIONS

- Anti-aging products
- Sun care products
- Skin lightener/brightener
- Acne products
- Sensitive skin care products
- All creams, lotions and makeup products
- Oils and other anhydrous products

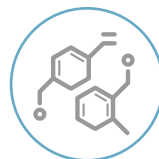

Sustainable

Skin
Brightener

Synergistic with
Vitamin C Derivatives

Inhibits
Tyrosinase

Safe for
Sensitive skin

Hypoallergenic
