

SMA'RT Walnut Shell Powder

Biodegradable Natural Exfoliant

Description

Walnut Shell Powder is a natural, biodegradable exfoliating ingredient derived from finely milled walnut shells. Its coarse particle size provides effective mechanical exfoliation, helping to remove dead skin cells and surface impurities while promoting smoother, healthier looking skin. Walnut Shell Powder is an environmentally friendly alternative to synthetic exfoliating beads.

Key Attributes

- Natural and biodegradable exfoliant
- Provides strong exfoliating performance
- Renewable plant derived ingredient
- Microplastic free alternative
- Enhances skin smoothness and texture
- Suitable for natural and sustainable formulations
- Compatible with a wide range of rinse off products
