

Avenolat

Functional Oat Milk

Nourishing, soothing and emollient

CHARACTERISTICS

Oat, as useful cereal part, first appeared historically in the eastern regions of the Mediterranean area.

The external part of the **oat grain** is particularly **rich** in **vitamins, lipids** and other **functional substances**.

Oat oil has relevant **nutritional values** since it is rich in **unsaponifiable** and **phospholipids**: it has **remarkable nourishing** and **emollient properties** and it is much recommended for dry skin.

Oat-based detergents act without damaging or denaturing proteins of the skin horny layer and without the undesired effects of the common surfactants.

PROPERTIES

- Moisturizing
- Emollient
- Nourishing
- Suggested for dry and delicate skin
- Prevent hair dryness and improve hair texture

FOCUS INFO

INCI NAME

Avena sativa kernel extract,
Hydrolyzed Oat Protein,
Potassium Palmitoyl Hydrolyzed Oat Protein

SPECIFICATIONS

Appearance:	milky dispersion
Color:	white ivory
Odor:	slight
